Central Intelligence Agency
Washington, D.C.

Dear George:

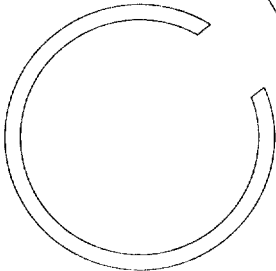

STATINTL

I have enclosed several copies of brochures which give you our Systems Management Division's broad base of scientific, technological, and engineering capability to perform research and development tasks for the Central Intelligence Agency. Although these capabilities represent those within the Systems Management Division, I can assure you that we have the full resources of the [Redacted] Corporation to call upon if necessary. Our approach to any problem is one of objectivity. We require our sister divisions to compete with other industry contractors on any major programs, and we select those best qualified to perform against the required specifications, on schedule, and at lower costs.

I hope the Systems Management Division of [Redacted] Corporation will be considered for a role on future Central Intelligence Agency Programs. Please call me if you need further information.

STAT

Best regards,

[Redacted]
Advanced Avionics
Systems Management Division
